1. Attached are several photographs taken by Mr. John H. Riley of 178 Bogert Road, River Edge, N. J. He claims that these are authentic photos of an unidentified aerial object and is apparently attempting to sell them to East Coast newspapers.

2. The newspaper which forwarded the photos, the Newark-Star Ledger, has been very cooperative, and it is requested that the fact that they sent the photos to ATIC not be mentioned.

3. ATIC does not believe these photos are authentic because:

a. They were apparently taken in a populated area at 10:15 a.m. and the object was supposedly visible for seven minutes. Yet, no one else reported seeing it.

b. The relative sizes of the objects in the foreground indicate that the object would be about the size of a lady's sun hat at 30 ft. to 40 ft. away. If the object were farther away, it would be extremely large and again it should have been observed by other people.

4. It is requested that the background of the observer and photographer be investigated in an attempt to determine their reliability; that the photographer be questioned as to the circumstances under which he took the pictures; that an attempt be made to locate other sources in the area; and that any other data be obtained that OSI believes to be pertinent in determining the authenticity of the photos.

DATA ON SAUCER PHOTOGRAPHED JULY 31, 1952 IN PASSAIC, N.J.

Photographer: John H. Riley, 28, 571 Main Street, Paterson, N.J.
occupation: photographer.

Known witness: George J. Stock, 221 Brooks Avenue, Passaic, N.J.

Date: 31 Jul 52

Time: 10:15 a.m.

Place: 200 block, Brooks Avenue, Passaic, N.J.

Weather: Clear, in mid 80's

Color of saucer: greyish

Altitude: 200 feet at lowest point

Riley says he was visiting Stock, his friend, and talked to him in front of Stock's home. Stock first saw it. Riley says it travelled southeast at a "leisurely" speed. "As it drew nearer it came to a complete stop and hovered overhead for several moments about 200 feet from the ground."

"It was near enough to shoot at with a rifle." He described the disk as about 30 feet in diameter and greyish in color with a large dome jutting from its center. The saucer made no sound when hovering and moving. Before taking off again in a southwest direction, it tilted "as though to observe the ground. "An antenna--or something like it--darted out of the dome's top for a moment and then was withdrawn." He snapped several pictures with Stock's camera. Saucer was in sight about seven minutes. Disappeared very rapidly to the southeast.

No "fixed" negatives but Riley will not part with them. Could not have thrown object in air because one photo shows object very high.

Riley took his negatives and was away (probably trying to sell them in NYC) today so no data available on camera, its speed etc. Three other witnesses reported but unable to canvass neighborhood today for names etc..

RE: SPECIAL INQUIRY
UNIDENTIFIED AERIAL OBJECTS;
Inspector General, USAF
2nd District Office of Special Investigations
67 Broad Street
New York 4, New York

For the information of the Bureau, on August 27, 1952, the Newark division received a request from the Inspector General, United States Air Force, 2nd District Office of Special Investigations, 67 Broad Street, New York 4, New York, that the background of a civilian photographer, JOHN R. RILEY, 571 Main Street, Paterson, N. J., and of GEORGE J. STOCK, 221 Brooks Avenue, Passaic, N. J., be investigated in an attempt to determine their reliability in view of the fact that they had allegedly observed and photographed an unidentified aerial object on July 31, 1952.

The appropriate credit and criminal checks were made in this matter as well as discreet neighborhood inquiries as to both individuals, and no information was received that either individual had criminal records or that they were known in the past to have perpetrated any kind of fraud.

It was ascertained that STOCK did photograph an allegedly unidentified aerial object and that RILEY witnessed the incident and developed and printed the exposed film which was subsequently forwarded to the 5th OSI District, Air Technical Intelligence Center, Wright-Patterson Air Force Base, Ohio by Mr. CHARLES GREGG, staff writer, "The Herald News, Passaic, N. J."

The letter further requested that the photographer and the witness be questioned as to the circumstances under which the photographs were taken and that an attempt be made to locate other sources in the area that might determine the authenticity of the photos. No investigation of this type was made by the Newark division.

In accordance with SAC letter #83, Series 1952 dated 8/29/52, the results of the credit and criminal checks and the neighborhood investigations were forwarded to the local OSI Office, New York City and no further investigations have been made by this office.

Dear Sir:

DECLASSIFIED BY *SP 6 bja/Hcy*
ON *5/15/86*

In reply to your communication on August 27, 1952 with this office relative to one JOHN H. RILEY, 571 Main Street, Paterson, N. J., a commercial photographer, and of GEORGE J. STOCK, 221 Brooks Avenue, Passaic, N. J., who allegedly observed and photographed an unidentified aerial object on July 31, 1952, the following is submitted for your information.

JOHN H. RILEY is self-employed at the Belmont Photograph Service, 571 Main Street, Paterson, N. J., as a photograph finisher and printer. His business does not include the taking of photographs on a commercial basis, however, RILEY may have a working knowledge of photography other than the processing of exposed film.

A check was made relative to JOHN H. RILEY with the Paterson, N. J. Police Department Record Bureau and the Passaic and Bergen County Credit Bureau. Both checks proved negative concerning RILEY.

The Paterson Chamber of Commerce, Better Business Bureau Records disclosed no complaints having been filed against the Belmont Photograph Service or JOHN H. RILEY.

HARVEY BASKINGER, co-owner of Baskinger Hardware Store, 557 Main Street, Paterson, N. J., stated that he had known RILEY for approximately one year but was not familiar with RILEY'S background. BASKINGER did, however, indicate that he did not

believe RILEY to be reliable in that he had some trouble with him in his hardware store and consequently watches him closely when he, RILEY, comes into the hardware store. BASKINGER did not elaborate further on this point.

Dr. JOSEPH DI STEPHANO, 553 Main Street, Paterson, N. J., RILEY'S landlord stated that to his knowledge RILEY had a photograph service route which he covered daily to solicit business from firms receiving film to be processed. DI STEPHANO stated that he knew very little about RILEY except for information coming to him through personal contact. Dr. DI STEPHANO stated that RILEY had rented from him for approximately two years and although RILEY'S business does not appear to be too prosperous, he had never been in arrears in his rent. RILEY is single, approximately 29 to 30 years old, 5' 5"-6" tall, 130 pounds, brown hair, and medium build.

Dr. DI STEPHANO further stated that only on one occasion has he had any complaint relative to RILEY and that was regarding a tenant's complaint that RILEY had been seen taking women and men into his photograph laboratory late at night and the tenant was curious as to what was going on at those late hours.

The Passaic and Bergen County Credit Bureau and the Passaic, N. J. Police Department records were negative as to information concerning GEORGE J. STOCK. STOCK is employed by the City of Passaic, N. J. Park and Recreation Department.

Mr. THOMAS CAVANAUGH, Recreation Director, Department of Parks and Recreation, Passaic, N. J., stated that STOCK was employed by him as a grounds keeper and had been with the City of Passaic a number of years. CAVANAUGH stated that he had known STOCK personally for ten to fifteen years and he has never come upon information that would be derogatory to STOCK'S moral reputation or his integrity. CAVANAUGH stated that STOCK lives with his father at 221 Brooks Avenue, Passaic, N. J., and they both enjoy a very simple life.

CAVANAUGH stated that STOCK'S main interest was mechanics and that he had a very modern and completely equipped machine shop in a shed on the rear of his property that took up most of his extra time. CAVANAUGH stated that STOCK also has peculiarities and does not get along with his fellow employees too well. He, STOCK, confides in CAVANAUGH and seems to lean on him for whatever help he might require. CAVANAUGH went on to say that he had discussed the

Letter to Inspector General, USAF

10/3/52

"flying saucer" incident with STOCK and that he had actually seen the original negatives of the photographs that were taken of the aerial object which are presently in the possession of STOCK.

Mr. CAVANAUGH stated that STOCK had related to him the full details of the incident and stated that he, STOCK, had taken the photographs rather than RILEY. STOCK related to CAVANAUGH that he had been advised by RILEY on the day of the occurrence and that he had given the exposed film to RILEY for developing and printing, whereas RILEY then took the film and made copies for himself which he sold to the local Paterson newspaper and possibly other publications.

Mr. CAVANAUGH stated that STOCK finally recovered his negatives and that he had examined the negatives closely and they did not appear to be "touched up". CAVANAUGH stated that in order to appreciate the situation, one would have to know STOCK for a number of years to realize that he has little or nothing to gain from any publicity received through these photographs and that in effect, he would not endeavor to publicize the incident. CAVANAUGH stated that STOCK'S father also witnessed the incident as did RILEY and that he, CAVANAUGH, thoroughly believed both STOCK and his father to be perfectly reliable especially with him, CAVANAUGH.

This information is being furnished your office for whatever action you so desire and no further investigation is being contemplated in this matter by this office. Interviews of RILEY and STOCK are being left to your discretion, inasmuch as further investigation in this matter is within your jurisdiction.

Very truly yours,

S. K. MC KEE

SUBJECT: UNIDENTIFIED FLYING OBJECT

Mrs. J.J. Henry Muller, III, 38 Douglas Road, Glen Ridge, N.J., telephone PI 8-5676, telephonically advised on the above date that in the middle of the afternoon of November 5, 1957, her husband, herself and 2 children were on the lawn of their property.

From a southwesterly direction they observed a long, cylindrical, dark silver object with no wings but fins on the rear, moving along toward the northeast. There were no markings on the object, it was not flying high nor fast and they could not tell if it made any noise since there was a plane flying nearby at the same time.

She recalled there were no other neighbors out at the time and they apparently were the only ones who saw it.

She stated that the object returned from the direction it had gone about dusk and it seemed as though there was some motor noise from it. It flew into the southwest at a higher altitude but at about the same speed.

The writer was telephonically contacted on this date by Det. George Langrehr of the Jersey City P.D., at 12:55 AM. Det. Langrehr informed the writer that at 12:43 AM on this date he and his partner, Det. Edward Sherry viewed in the sky the exhaust of an object which Det. Langrehr stated traveled at a speed of 300 or 400 miles an hour at an altitude of 1,000 to 3,000 feet. He described this object as having an exhaust of a brilliant bluish white flame about 40 feet long and he stated he saw this object for about 30 seconds. He stated that it wasn't a fallen star in his opinion as it traveled in a flight manner. He and Det. Sherry saw this object at Communipaw and Pacific Ave.'s in Jersey City, while they were in a car traveling due west. They stated this object traveled in a North, Northwest direction. They lost sight of it when it traveled behind some buildings in Jersey City. They stated that Ptl. John WHEAMEN of the same precinct also viewed it. These three officers are all attached to the Fourth (4th) Precinct in Jersey City. Det. Langrehr resides at 55 Bleecker St., Jersey City, N.J. and Det. Sherry resides at 56 Gates Ave., Jersey City, N.J.

At 1:05 AM, the writer received a phone call from Mr. Herman Taubman, who stated that he had viewed an object which he described as a meteorite or comet in the sky above Woodbridge, N.J., on Helm Ave., in that city. They stated (He and his wife Betty) that they were on a hill above the Curtiss-Wright Plant in that city and this object flew over this plant in a left to right direction at a height of 1,000 to 3,000 feet but he said it traveled at a speed of 10,000 mph., and his wife said it traveled much slower than that speed, that this object was of a tremendous size and that the object had a bluish-white flame and he saw it for some 30 seconds. Besides himself and his wife, he stated the following people saw this object: Doris and Bob Ostroff of Roselle, N.J.; the Richard Morgan's of Passaic, N.J. The writer telephonically contacted SA John Murphy, who is in charge of liaison with other government agencies in the Newark office, at 1:10 AM. The writer wished to know whether he should immediately contact OSI or if SA Murphy should do so. SA Murphy told the writer that the procedure as he understood it was to send a letter to the interested agency and not make an immediate contact with the agency at night. SA Murphy did suggest that the writer inform the Sunday morning duty agent of the contents of this memo and leave it to his discretion as to whether OSI should be contacted at that time.

Mrs. A.G. Dower telephonically contacted the Newark office at 1:35 AM on this date. She informed the writer that she and her husband had seen a UFO that had passed over her residence in a South to North direction; that it had lasted for only two or three seconds; that to her it appeared to be a white hot point of light, with a tail of predominantly orange coloring; that this tail was at least ten times as large as the object; that the tail was fan shaped; that it was at an altitude of greater than 3,000 feet; that it was unlike a falling star; and that when they first saw the object it appeared to them that it had burst into flames. Mrs. Dower advised that she resides at 8 Harvard Terrace, West Orange, N.J.

Re memo of SC. D. Louis Barra Jr. dated 1/16/61 at Newark.

Index

On 2/13/61 Mrs. George Goarcke, 122 Main St. Franklin, N.J.

advised that she had approximately one month ago seen an article in the Newark News concerning unidentified flying objects that were a matter of concern to the U.S. She stated that as a result of this article she recalled that in either 1938 or 1939 she attended the Newark Art School and had a teacher by the name of John Grabach, who resided at 915 Sanford Ave. Irvington, N.J. Mrs. Goarcke stated that on one occasion in 1939 Grabach had requested her to do a drawing of Boulder Dam which was to be used for purposes of reprinting. She stated that she had never been paid for this drawing and that she has had no contact with Grabach since that time.

Mrs. Goarcke also stated that she believed that these unidentified flying objects could be used to obtain pictures of such installations as Boulder Dam which idea occurred to her as a result of the above mentioned article in the Newark News. Mrs. Goarcke also stated that in 1939 Grabach was in sympathy with communism and dammed the American Way of life.

Mrs. Goarcke was during the course of the interview inclined to wander in her thought process and appeared on occasions to be in a

daze. She could not furnish any information other than that she believed that unidentified flying objects could be used to take pictures of

Boulder Dam.

DEPARTMENT OF THE AIR FORCE
WASHINGTON

OFFICE OF THE SECRETARY

20 February 1963

Dear Mr. Hoover:

It has been some length of time since I've written you on a subject of mutual interest---Unidentified Flying Objects. When I last contacted you, I was then Department of Defense spokesman for Project Blue Book, the organization responsible for investigation of UFO sightings, a part of our Foreign Technology Division located at Wright-Patterson Air Force Base, Ohio. I turned over my responsibilities as spokesman to Major Carl Hart of our Division a year ago last month, when I was moved up to Deputy Chief of the Operations Branch, Public Information Division.

I thought the Bureau might be interested in the inclosed "burn" copy of a letter which was printed in the March 1963 issue of "Saucer News" (now in its tenth year of publication). This Publication is printed quarterly by the "Saucer and Unexplained Celestial Events Research Society"---James W. Mosely, Editor. It takes a middle-of-the-road editorial policy, printing views of non-believers, believers, contactees, etc., and reviews books on the "flying saucer" subject.

With best wishes, I am,

Sincerely,

JAMES W. MOSELEY

There has been a delay in the publication of my forthcoming book, "The Second Coming of Christ and Flying Saucers!" I had plans to have it printed instead of mimeographed. I took it to a printer and he obtained legal advice that didn't recommend its publication. I was told by the attorney that the book was too harshly critical of the U. S. Government, particularly the FBI, and that this might bring legal trouble; and that other parts of the manuscript are so controversial that they might cause libel suits. He felt that you might sue me. I tried others, but after reading the manuscript, they would not print it.

This meant I had to send out notices to purchasers of the book that I would have to put out a mimeographed edition, and this would not come out before March. "Flying Saucer Review" turned down my ad, but so far, other magazines plan to publish it in January and February. All will be given a

chance to order it, and all orders will be shipped the same day. The book will mean my arrest and so I plan to release all copies in one day. If I were to fill orders as they came in, then someone on the list might be a secret Government agent, or would turn it over to the authorities as a book that threatens the national security of the U.S.; and the rest of the cop-

ies would be confiscated. This is based on the advice of the attorney who read the manuscript. After getting that advice, I am keeping the contents of the book secret until its release in March. Thus, the Government has no idea just what I intend to release, until too late! After the orders are shipped in that one mailing, they can come and arrest me for all I care. My life's mission for Jesus Christ will have been fulfilled, and my goal accomplished. The truth, even if it should violate man-made law, will be sent out to seekers of truth.So I risk personal ruin to get this thing out; but one must make sacrifices in the name of Christ if one is worthy to enter the kingdom of Heaven. In the eyes of the Government, the book will be considered dangerous, but in the eyes of God, it will be considered Truth.

Dear Sirs:

I am a member of the National Investigations Committee on Aerial Phenomena (NICAP), headquarters Washington, D.C., and would greatly appreciate your answering the following questions:

1- Has the United States Air Force compelled you in any way, thru official orders or otherwise, to withhold from the press media and the general public any information you might obtain from investigating an unidentified flying object sighting reported to you or any county or local police force in the State of Arizona?

2- If the answer to question #1 is in the negative what is the Arizona State Police policy regarding UFO sightings reported to you in releasing information on said sightings to the press media and general public?

3- Have you investigated any recent UFO reports and, if so, what were the results of those investigations?

Thank you.

Sincerely yours,

John Laval

Dear Lt. Col. Hermann:

On the evening of May 30, 1964, Theodore John Rubitz, age 13, of 167 West 19th Street, Bayonne, New Jersey, telephone Federal 9-8738, telephonically advised this office that at about 9:50 PM on May 30, 1964, he was walking along 22nd Street in Bayonne between Avenue A and Newark Bay when he observed five unidentified flying objects.

He described these objects as being round and gray in color, flying north to south in a diamond-shaped formation, with the fifth object just in back and to the right of the last object in the diamond. He stated that they were very high up, looking like they might be lights but traveled across the sky faster than the speed of a plane and he was certain that these were not just planes or search lights. Rubitz was unable to further identify these objects.

Mrs. Theodore Rubitz, mother of Theodore, advised that her son was not given to fanciful stories and that from what he had told her, she was sure that he had seen the objects described by him.

UFO Sightings

Objects Seen in Wanaque, Newark

A large shining unidentified flying object hovered over the Wanaque reservoir and was seen by police and more than a dozen residents last night. Another sighting was reported in Newark.

At about 9:25 p.m., the reservoir police were swamped with phone calls, which reported a mysterious flying object had flown over the Wolf Den Dam and landed in the reservoir in Upper Passaic County.

Reservoir Police Sgt. Ben Thompson who investigated radioed back to headquarters reporting that a large object, about the size of an automobile was hovering over the reservoir at a height of about 150 feet.

"It's lighting up practically the whole southern end of the reservoir" Thompson told Patrolmen Edward Webster and William Pastor who were at headquarters at the time.

Object Disappears

Thompson then turned on the red light atop his police car. The object disappeared.

Both Webster and Pastor said they saw the object fly off in a northerly direction.

"It definitely wasn't a plane," said Pastor.

Pastor explained that the object which flew away at a height of several hundred feet, would sometimes stop and hover in one spot for several seconds

and then move off with great speed.

"Sometimes it would disappear for a second or two and then you could see it again," he said, adding:

"We finally lost sight of it shortly before 10 p.m. It was heading north over the upper end of the reservoir toward New York State."

Had Been Seen Before

Pastor said the object had been seen several times before but it had not gotten this close to the water recently.

He said that Air Force officials had taken pictures of the object in January, after it was seen one night by about 50 persons in the area.

He added that the Air Force officials who investigated the January sightings made no comment on the UFO.

Air Force officials at bases in this state and New York said they knew nothing about UFO reports last night.

Norvel Wilson of 33 Burnet St., Newark, reported his attention was attracted to the sky over his home by a whirring noise which he found hard to describe and spotted what appeared to be a large kite with a string of lights several hundred feet in the air. He said the object disappeared as it headed southward.

BRIGHT WORLD IN HANDS OF SAUCER MOVEMENT

(Editor's Note: This special message was received from Master Kalen-Li Retan (head of the planet Korendor, about 400 light years distant) on May 4, 1966 via special directional short-wave radio by Bob Renaud, the young electronic-technician whose remarkable story we printed in issues #18, 19, 20, 21, and 22, and which will be continued in our next issue.

Since Bob's initial radio contact in 1961, he has talked with the crew of a spacecraft as he watched them on his special TV screen in his home — and eventually met his contacts in-person; visited their undersea and underground bases on our planet; was taken aboard many of their spaceships; and was actually allowed to pilot two of their small scout craft — one on a short solo flight.)

"Kalo (Hello), friends. We will get directly to the point of our message to you. Frankly, we are appalled at the state of Earth at present. Despite our constant warnings and even our actual intervention in some instances, the condition upon your planet grows steadily worse.

One subject on everyone's lips these days is Vietnam. From a little civil war, it has grown steadily and inexorably into a full scale conflict between the world's three major powers: the United States, the Soviet Union, and Communist China.

Many influential people have used the approach of patriotism and love of God and Country to twist decent human feelings into dangerous channels of thought and action. With their charges of treason and sympathy with the enemy, they have aroused a good portion of the populace to a state of fear, distrust, and hatred of those who seek peace and love. Unfortunately, because some unconventional individuals have been associated with the peace movement, that entire operation has been seriously hindered.

Your government is a military puppet, a mere parrot of the monstrosity that is the Military-Industrial complex. Your senators, except for a few, are robots, speaking what they are told to say.

Your President is, unfortunately, a pawn of their needs and demands. We have contacted him several times concerning the state of affairs, and he has said that he could do nothing to change them, for if he were to speak out against the Asian conflict, he would be removed. This is what happened to the late Mr. Kennedy who, in his great humanitarianism, was reluctant to sacrifice his ideals and his visions for the sake of the Military Industrial octopus. He paid the supreme penalty for his efforts in behalf of

humanity.

Make no mistake. Your government is not in the White House or the Congress. IT IS IN THE PENTAGON, AND IN THE HEADQUARTERS OF THE VAST "DEFENSE"-ORIENTED INDUSTRIES. It is THEY, not the President or the Congressmen, who run the United States. The facade government is merely to allay undue alarm or suspicion of the people.

Examine another aspect of the Asian war, the ECONOMIC side. Do you recall that, in the stock reports just recently, the Dow-Jones average dropped sharply BECAUSE OF A RUMOR THAT NORTH VIETNAM HAD MADE A PEACE BID? Does the staggering implication of this news evade you? Stock prices suffering a heavy loss because of a rumor that peace might come to pass!

This thought is most distressing. Your economy relies so heavily upon war and destruction, that if it were to stop, THE UNITED STATES ECONOMY WOULD SUFFER A MASSIVE DEPRESSION! Your money system would collapse like a house of cards. Millions would be unemployed, sick, hungry and homeless. Tremendous industrial complexes would close their doors.

The utterly appalling fact is this: WAR IS PROFITABLE. Highly so! Every major conflict has been accompanied by a strong peak in your monetary prosperity. Peace has usually been economically painful!

After World War 1, the nation coasted for a while upon the fat put on during the boom of the war years. In 1929, the bottom fell out. After the Korean War, in the 1950's came another recession. What comes after Vietnam? No one knows, and no one wants to find out. The war in Vietnam is bringing an unheard-of degree of affluence in the United States. Why kill a good thing by ending the war? The philosophy, in essence, is this: It is economically expedient to send military forces to Vietnam and elsewhere in Asia in order to wage war, because in doing so, the United States' economy is bolstered and maintained at a high level of prosperity; human life is secondary to the preservation of economic well-being!

It is thus evident that, unless a drastic change is made in the structure of your economy, war will never end because the Military-Industrial complex WON'T LET IT!

Many of you fear Communism. Where did that fear come from, I ask you? From within yourself? NO! It was brainwashed into you by the Military-Industrial complex. Who controls all your news media? The government and the advertisers. Who, then, is in a position to dictate what shall be printed?

The Military-Industrial complex, by opinion-control through the use of psycho-politics (brainwashing by controlled news management).

Consider this: In order to survive, a commercial medium, such as a newspaper or magazine, requires a vast amount of advertising revenue. The mere subscription fees will not cover the costs. Thus, they depend for their continued existence upon money paid by advertisers. Suppose, then, that the editor of a certain newspaper decides that he is opposed to the Vietnam policy, and says so in his paper. The advertisers simply say to the editor, "Either you toe the mark and print what we want, or we'll withdraw our advertising."

Such pressures are a fact of life. The newsmen are torn between their higher devotion to Truth, and also to the lower level of their physical needs. Rather than jeopardize their security and their futures they, of course, submit meekly to power. Their actions are fully understandable, and we do not hold them responsible.

We throw the blame directly on the Military-Industrial complex which, by its underhanded dealing, threats of force, and economic pressure and retaliation, has crushed the spirit of American journalism and turned it from a dynamic motivating force in American life into a weak-willed, subservient mouthpiece for the power-masters. We blame them for the death of journalistic freedom and individuality!

One more comment on this topic: May I say that a better economic system is already known to the leaders of the Flying Saucer Movement. It is the system known as Universal Economics. As we have said over and over before, it is the non-money economic system which MUST be applied on your planet before you can start to resolve most of your major problems and thus begin to establish a highly-advanced, non-destructive state of existence on Earth, such as we of more advanced planets have enjoyed for so long. INVESTIGATE THIS SYSTEM to evaluate it for its merit — then ACT to apply it! YOUR VERY SURVIVAL AS A CIVILIZATION MAY DEPEND UPON IT!

Perhaps this is an opportune time to clarify a few questions which have been asked about us.

Do we of Korendor work with the local planets in our operations? Yes, we do cooperate with them a great deal. However, our work on Earth is relatively independent of the local planets. We have many times overstepped what is considered to be the limit of interference upheld by Venus, Mars, and other planets. This has caused a good deal of debate between them and us. Each time we have pointed out that we of Korendor are basically pragmatic in nature. Although we do respect the laws of self-destiny, we feel also that where stepping in is required to prevent disaster, it is our right and our duty to do so.

We have interfered in such places as the United States, China, Russia, and on a large scale in Vietnam. This has caused no end of consternation in the local Tribunal of Planets. We are sympathetic to their viewpoint, but we do feel that their policy is limited in its capacity to achieve the desired goals. It is our opinion that one cannot stand on the sidelines and achieve any noticeable results.

As I have said before, we have infiltrated your planet. We are directly involved in Earth's life. You might say that you have been invaded — a strong way of phrasing it, to be sure, but nonetheless factual, since we walk and work amongst you daily!

We have been asked about our physical appearance. We are humanoid, indistinguishable from yourselves, except that in our natural form we average three to four feet in height. Every other dimension is proportionately scaled, so that photographs of us would not reveal our origin in any way.

We are able to increase our height while on Earth through a technical process related to teleportation. It is concerned with recording the atomic and molecular structures of our bodies, and then reproducing them identically on a larger scale. Differences in our internal structure are adjusted by the computer which controls the reproducer.

Our most common skin color is a little darker than yours, although we have skin colors which vary as yours do all over the Earth. Usually, however, we would look "tan" to you. We are NOT green, blue, or heliotrope, as has been suggested!

Concerning our language, we generally use one of two tongues and we are fairly familiar with a third. On Korendor itself we speak the native language, Korendian. It is similar in many ways to your own languages since it, like yours, was originally derived from Galingua, one of the two universal tongues. The other is Solex Mal, which is more familiar to you, since it is used by your local Solar System planets. It is seldom heard now in our sector of space, as Galingua has replaced it almost completely.

Unlike your own, however, the Korendian-Galinguan speech is very rhythmic, and has few sibilant sounds, such as "s" or "z". Some of the sharper sounds like "c" and "k" are minimized. It is a beautiful language which is very musical and pleasant to hear.

Perhaps you would be surprised to learn that ancient Latin was liberally taken from Galingua. There are many similarities in the two languages. Even modern English has roots on other worlds!

In concluding my message to you, may I say — people of Earth: open up your minds and your hearts to the world around you. There is so much to be learned, so much to be discovered. Don't waste precious hours and days in bigotry and ignorance, and in senseless fighting and killing. To do so is truly a crime against nature and humanity.

At this stage where you have the very stars almost in your grasp, how irrational and barbaric it is to spend futile hours warring with your brothers. As an old saying on your world puts it: "As you make your bed, so shall you lie in it." The decision does not seem difficult. Here are the alternatives: A world living in harmony, justice, security and abundance for all, or a world continuing to reap the bloody harvests that grow from the seeds of hatred and mistrust. If left to their own devices, the majority of mankind will forge onward to a destiny of destruction and annihilation, oblivious to the danger in their actions. They are short-sighted; they care little for the future.

It is you New Age people, dedicated to the welfare of all mankind, and having the vision and understanding of the ways to build the better world of tomorrow, who must lead the way. You have the future in YOUR hands, if you will but shoulder your responsibilities. The Flying Saucer Movement, as you call it, belongs to you. Support it in every way possible. Help it to grow until it is influential throughout your world. Go out into the world and guide the misguided, find the lost, and recover the strays. We are behind you all the way. As we have said many times before, we will take two steps for every one that you take to help yourselves.

The time has come for nations to "bury the hatchet", to clasp hands, and plunge into the future together — in co-operation toward mutual goals.

Look to the heavens and realize that your destiny is not in bleak atomic desolation, but in the magnificent greatness that you can achieve if you will but work for it. Choose the right path and you will soon qualify to join with us in our journeys amongst the stars.

THE COCKEYED BALLAD

There's a cockeyed feeling in the world today
That power politics is here to stay.
But China, Russia and the U.S.A.
Boy—don't let them fool you!

Take a look at this world of ours,
Just one mud ball in the sea of stars.
Other planets have no color-bars,
'Cause they've got perspective.

Yanks and Ruskies put men into space,
But it's all a mad politician's race,
One-up-manship in this Year of Grace.
It makes you giggle.

The population stands and stares,
While men in capsules explore upstairs.
Why we can't even manage our own affairs!
Some cheek—colonization!

Besides, they've got people on Venus and Mars.
They got lads and lasses and ma's and pa's.
And they've got better transport than four-wheel cars.
Have you ever seen 'em?

Those Flying Saucers whisking through our skies
Must take some power to make them rise.
But government departments just hide their eyes,
And call them meteors!

With all the lies that they print and shout,
The general public's got its work cut out—
Figuring what it's all about.

But just you keep on trying.

I suppose you know why I'm telling you this,
So you won't shriek or shake your fist
When you discover Martians do exist!
They're real nice fellows.

I know, 'cause I met one a week ago!
His ship came down for an hour or so.
He talked to me, but then he had to go.
Real interested I was!

Got brothers on Venus and Saturn, it seems—
Fly their ships on magnetic beams.
They wear one piece suits—you can't see any seams;
But apart from that—they're just like us!

SPACE AGE SONGS by Mollie Thompson

SPACE-TALK

The powers that be will tell us we're alone.
They'll tell us that in space we are unique;
On this little desert island we call Earth
The human race is just a kind of freak.
When we send our envoys into space
There'll be a smile upon this planet's face,
'Cause brother, right out there—I'm telling you,
There's another human race; it's very true!

They're a very, very peaceful crowd,
For they just never go to war.
And they cannot interfere,
This is by Universal Law.
The spaceman's message to us all
Is based on how to banish fear,
And if we only understand,
We will find it heaven here.

While we must rely on war,
We never will be happy here.
While this world's economy
Is based on hardship, strife and fear.
How do they live without a war
In their lands of milk and honey?
They don't need economy,
Because they don't use any money!

They cannot give us any ships,
So we must try and build our own.
But they are waiting right out there,
Oh, my friends, we're not alone!
How do they go at such great speed,
And vanish then without prediction?
Because they use free energy,
And there isn't any friction.

Brother have you seen their ships?
Sisters have you seen them glow,
As they dance and hover in the sky,
And make our fastest jets look slow?

NEW SAUCER PHOTOS: These remarkable photos of Flying Saucers were taken by Dr. Daniel W. Fry, President of Understanding, Inc., of P.O. Box 76, Merlin, Oregon 97532. Your editor enlarged them from the original 16mm color movie film. Spots on the photos are due to the extreme enlargement of scratches and dust spots on the film. Of special interest is the fact that the same type of craft was photographed near Merlin, Oregon in a wooded section, and again near Joshua Tree, Calif. on the desert.

Read Saucerer Believes
Martians Are Watching Us

Who's in All Those Saucers?

By Harold Scarlett

Was Jesus Christ a Martian? It's hard to say, said Gabriel Green, thoughtfully. Then he added that it certainly seems plausible. It's no trick at all to walk on water or ascend to the heavens if you have a Martian levitation belt around your waist and an anti-gravity beam to ride, Green explained.

Furthermore, he said, the Martians now visiting earth on flying saucers are trying to save the earth's people from their own follies — just as the Savior was.

Green can speak with some authority on these matters because, he says, he met and talked with a Martian once. Also a four-foot man from the Alpha Centauri star system. Also some other unearthly visitors.

SOMETIMES, HE said, he met these flying saucer crewmen by telephone appointments. These were arranged through associates of his with telephatic talents.

"And once in a while," he said, "they would just call on the phone to our house."

Green, who lives in Los Angeles, is the head saucer — the president — of the Amalgamated Flying Saucer Clubs of America.

Not being too telephatic, he just called Green on the phone to interview him about the recent rash of flying saucer sightings around the country.

"It is a continuation of the efforts to enlighten us," Green replied in calm and cultured tones.

"The current series of sightings and landings, I understand, will increase. They are not going to go away, as some members of our government would like."

WHY DO THEY keep buzzing down here and scaring people? "What with a nuclear proliferation growing, it seems rather obvious that unless we start resolving the present problems facing mankind, we will destroy ourselves and perhaps some of the universe along with us," Green explained.

"This is one of the primary reasons why the extra-terrestrials started making visits in 1947, shortly after we developed this ability to watch over us and if possible to impart their advanced scientific, technological and sociological knowledge to help us re-

From B. C., the Post, May 9, 1966

solve these problems before we destroy ourselves."

Green said he is trying to do his humble best to help them spread that message.

"The solutions they have given," he said, "deal primarily with resolving the motives for war, expansionism and poverty. They hope to eliminate the have-not nations . . . through superior financing. They have an advanced economic system they call Universal Economics. The economics part of it is what I personally am trying to transmit."

HE SAID REFLEXIVELY, however, that the saucer clubs themselves are an economic pinch that has prevented needed research.

Green said he runs the saucer clubs out of his own home, at 2004 North Hoover in Los Angeles, "to cut down on the overhead." He said there are clubs in 50 major U.S. cities and abroad, with a total of about 3,500 members. Houston has no club, he said, but he does have some interested Houstonians on his mailing list.

"We are a contact-oriented research group," he said, "meaning that many of our members have made actual

physical contact with crews of these craft."

Green said he has sighted 85 to 100 spacecraft around Los Angeles over the years and has met "half a dozen or so members of the crews."

BUT GREEN BELITTLED his own experiences. "They're so insignificant it's hardly worth talking about them," he said. "Some of our members have actually been taken for rides in spacecraft. I certainly wouldn't turn down a ride if it were offered me. But they've never asked me."

HE SAID HE met the Martians by appointment at a friend's home, and he looked "just like anybody you'd meet on the street." He was casually dressed, Green said, and wore a short-sleeved, shiny, metallic-looking shirt which he said would stop bullets.

All in all, a handsome chap, Green said. "I felt his hair and it was quite coarse and worn in a V-shape down to the center of the forehead," Green said. "But I rather doubt all Martians wear their hair alike, any more than we do."

"HE SAID THE MARTIAN canals

were really canals for distributing the short water supply from their polar regions, and that the two Martian moons are really artificial satellites just like the Russian astronomers have supposed."

Green said he had met the Alpha Centauri men several times — once in the Green home.

"He was dressed ordinarily and was about four feet tall, although this was unusual. Most of the reports of them are that they are normal height or larger," Green said. "There was that space ship that landed near Albuquerque, for instance, with a crew of four men and five women. They were very beautiful, very well proportioned. Seven to nine feet tall. Green said he had met other interstellar travelers but would "rather not go into the whole list."

Where did they park their space ships while they were visiting him? "OH, SOMETIMES they actually park them — hang them up in the sky with a force field around them. Then they have an anti-gravity beam and levitation belts they wear around the waist to get on down to earth."

THAT DEMONSTRATES the powers of the mind of these people. Just

Green said that he and his wife were taking the spacemen's picture, but they refused and he abided by their wishes. "An associate of mine once tried to sneak a couple of flash pictures," he said, "but two times the flash gun wouldn't fire, even though the camera was in perfect working condition."

like Uncle Martin on 'My Favorite Martian.'"

Green said he had never seen one of the unearthly beings beside his space ship. Then how could he be sure they weren't a hoax — practical — joking earthlings just putting him on?

"Oh, I wouldn't believe just anyone who walked up to me and said he was from Mars," Green replied.

"But if you get a call from the White House and were told President Eisenhower would meet you at a certain time on the corner of Hollywood and Vine, and you went there, and a man there who looked like the President called you by name, wouldn't you believe he was Eisenhower?"

Green said he once asked a spaceling to prove himself by disappearing.

"BUT HE REFUSED and told me to walk away," Green said. "He was on a balcony five floors high, and I walked down a hallway for three or four seconds and turned and looked back and he was gone. There was no logical place for him to go from that balcony."

Green believes the spacemen are undoubtedly friendly, just as they profess to be, or otherwise they could have destroyed the earth long ago.

"They say they want nothing from us but our friendship," he said. "They would never destroy us. This would be a violation of their code of life. They revere all living things."

Apparently they do have lapses, though.

"There was one decision that if any nation on earth fires a nuclear warhead, it will fall back on the people who fired it," Green said. "I don't know what their latest decision has been."

HE EXPLAINED that he hasn't been in contact with a spaceman for two or three years now.

Green said people from many planets are visiting earth, and that accounts for the wide variety of flying saucers being sighted.

One of his favorites is the Venusian scout ship. That's the one about 50 feet in diameter with the three protruding semi-spheres on the bottom and the porches around the cabin.

Green said it is operational only within 5,000 to 10,000 miles of a planet's surface. He said it comes down from a cigar-shaped mother ship that makes interplanetary trips.

At this point we decided to end the interview. The long-distance line to Los Angeles had begun making an eerie buzz and then an ominous blip-blip.

Maybe the Martians were listening in.

Saucer Sighting Report

DETROIT, MICHIGAN
MARCH 30, 1966

Five sightings were reported on Monday of unidentified flying objects, observed in the sky in the northwest Detroit area.

Northwest Precinct police station had three reports, Schafer one, and Palmer Park, one.

On Monday, 7:20 p.m., seven-year-old Mike Woods, 5415 East, stated that he saw a very high object with white lights heading north from the southwest, in the Faust Van Buren Avenue area.

Eddie Crunk, 17, 1974 Greenview and his companion, Robert Spallone, 15, 1974 Greenview, observed object over Crunk's home at about 8:20 p.m. Crunk said that the UFO came from the west, appeared as a small, white, disc-like object, with lights changing from the color red to green and then amber.

At 8:30 p.m., sixteen-year-old Michael Senia, 12810 Virgil saw something with a white light traveling very fast near Virgil and Gladwin. He claims also to have seen it at the same time on Sunday night.

A 30-year-old man reported to the Schafer precinct that he had observed something with red, yellow and green rotating lights at 11:17 p.m. Stewart Hall, 8549 Abington, saw the object near his home, stating that it was visible for about a minute.

Karen Ellington, 17, 15587 LaSalle, was walking to the front door of her home about midnight, when she noticed a light stream from the sky. It appeared to be about 150 yards away, according to the police report and stood motionless over the John Lodge Expressway, near Linwood. It was approximately 500 feet in the air, 9 feet long with a red light on the left and a green light on the right.

Miss Ellington told police that the object stopped twice, it started flashing, and its path of travel was from the east to the west.

She said she had seen others around the first of May.

The Oakland "airship" was the talk of the town for days and a number of other sightings were reported, from as far away as Red Bluff.

Although the original story said the craft resembled a "huge bird in its outline and seemed to rise and fall in its course," a light stream from the head of the ship, throwing a white stream of light for several hundred yards.

"As the outlines of the airship were plainly discerned, the passengers in the street car became greatly excited."

"The phenomenon had first been noticed by a man who had been idly watching the heavens."

Eerie 1896 Sighting

By JIM HAZELWOOD

The so-called unidentified flying objects (UFOs) seen Sunday in Michigan by at least 50 people, recall a bizarre story which appeared in The Tribune 70 years ago.

The date was Nov. 23, 1896, and it reported that many persons saw an "airship" flying over Oakland.

But this date was 10 years before the Wright brothers made the first successful heavier-than-air flight at Kitty Hawk.

Aerial balloons, however, had been known for decades.

"The passengers distinctly saw the outline of an airship and watched its maneuvers high in the sky. The ship resembled a huge bird in its outline and seemed to rise and fall in its course. A light stream from the head of the ship, throwing a white stream of light for several hundred yards."

"As the outlines of the airship were plainly discerned, the passengers in the street car became greatly excited."

"The phenomenon had first been noticed by a man who had been idly watching the heavens."

"That a huge airship has been hovering over Oakland for the last few nights has been the talk of many here. A number of persons whose integrity is unquestionable have seen the strange navigator of the air and this number includes many whose skepticism has been pronounced."

"Last evening at about 7:30 o'clock, the passengers on an Alameda car were startled by the sight of a brilliant stream of light high in the heavens off in the direction of Hayward."

"The passengers distinctly saw the outline of an airship and watched its maneuvers high in the sky. The ship resembled a huge bird in its outline and seemed to rise and fall in its course. A light stream from the head of the ship, throwing a white stream of light for several hundred yards."

"As the outlines of the airship were plainly discerned, the passengers in the street car became greatly excited."

"The phenomenon had first been noticed by a man who had been idly watching the heavens."

"The passengers distinctly saw the outline of an airship and watched its maneuvers high in the sky. The ship resembled a huge bird in its outline and seemed to rise and fall in its course. A light stream from the head of the ship, throwing a white stream of light for several hundred yards."

87 Coeds Observe 'Object'

HILLDALE, Mich. (UPI)—A group of 87 coeds said today they watched an eerie, hovering flying object settle in a swampy hollow near a college dormitory last night.

William Van Horn, 41, Hilldale county civil defense director for 10 years, said he watched the unidentified object through binoculars for three hours.

It was the second straight night a large number of witnesses reported seeing weird unidentified flying objects in Southern Michigan. Sunday night a dozen policemen and at least 40 other persons watched a similar object, guarded by four state police, land in a swamp about 45 miles northeast of here near Ann Arbor, Mich.

"The Air Force announced it was calling in Dr. J. Allen Hynek, chairman of the Dearborn Observatory at Northwestern University, Evanston, Ill., and requesting him to investigate the sightings."

Hynek will work from the Air Force Base at Mount Clemens, Mich., the Air Force said.

Van Horn said he joined the 87 Hilldale college coeds and their housemother to watch the object. He said he had binoculars and a flashlight, and appeared to have just above the swamp some 1,000 to 1,500 yards from the dormitory.

It was still there when he left about 1:30 a.m. today, he said. "It was definitely some kind of vehicle," Van Horn said. He said it changed from orange to red, perhaps with a rotating light of some kind, and had a white light at one end.

"From all appearances it did not appear to be coming in from the ground, but rather from far across the ground," he said.

He included many who said they were from government agencies and others who identified themselves as officials of the IBM Space Guidance Center in nearby Okemos, the farmer said. Most were just residents who wanted to see the landing spot for themselves.

One man who also claimed to be a saucer-seer told Mr. Wilcox he had binoculars from Massachusetts to talk to him. Other saucer-fans telephoned him and urged him to join their organizations.

But Mr. Wilcox, who professes he only wants to mind his own business and make a living, steered clear of such affairs. He had the telephone removed from his dairy barn because it was ringing so often he couldn't keep up with the chores, he said.

If any responsible agency ever determined exactly what happened in that remote corner of his farm last spring, he has yet to hear about it.

Mr. Wilcox did not seem particularly happy to see a reporter show up at his farm one morning last week. He wasn't rude, either. When the reporter arrived, he said:

ENCOUNTER WITH A SPACE SHIP "I Know What I Saw"; Egg-Shaped Craft

By KEITH GEORGE

Newark Valley—Gary T. Wilcox is a young man

People say his dairy farm has gone bust because nothing will grow on the land.

Others who meet him on the street express surprise, saying they'd heard he was in a New York City hospital suffering from radiation burns.

One story has it that he had a major surgery for unspecified reasons, and that there is a darkened patch in his pastures where nothing will grow.

The handsome, 28-year-old farmer says none of these tales is true.

But the strangest of all, and the basis for the rumors, is his encounter with a space ship and his talk with its eerie crew 17 months ago.

That happened, Mr. Wilcox says, "I know what I saw for two hours. I was talking with them and even joking with them."

Mr. Wilcox touched the metallic, egg-shaped craft and heard it strangely-garbled occupants explain in smooth English they were from Mars, he said. When he turned to get a bag of fertilizer, as they requested, the ship lifted off the ground and was out of sight in seconds, he recalled.

In the weeks after he reported the incident to the Toga County Sheriff's Department, curious people visited his farm by the dozen.

They included many who said they were from government agencies and others who identified themselves as officials of the IBM Space Guidance Center in nearby Okemos, the farmer said. Most were just residents who wanted to see the landing spot for themselves.

One man who also claimed to be a saucer-seer told Mr. Wilcox he had binoculars from Massachusetts to talk to him. Other saucer-fans telephoned him and urged him to join their organizations.

World Flying Saucer Believers Convene

New York Times Service

LOS ANGELES, Calif. — The "urgent problem" of improving communications with the thousands of visitors from outer space who supposedly are circling the earth was afforded solemn deliberation here this weekend at a special convention of flying saucer buffs.

Among the nearly 300 delegates was a self-proclaimed "interplanetary traveler" named Standing Horse, an Englishwoman who regularly issues mimeographed reports on her conversations with space travelers, a man who offered to book "group sightings" of flying saucers and a presidential candidate campaigning on the flying saucer ticket.

THE SPACE buffs, who assembled in a cavernous establishment called the Barney Castle, weren't much impressed with Thursday's Soviet moon landing, but they were awed and confused by what they reported to be a sharp increase in flying saucers.

One delegate, Marianne Francis, warned that the sightings could mark the beginning of some "ominous changes" for the earth's population. But the convention chairman, Dr. Frank Stranges, said the "interplanetary visitors" would turn out to be "angelic creatures whose mission is to help mankind."

The delegates were generally well groomed, articulate men and women who could have blended into any PTA meeting. Many were heads of organizations whose members spotted and photographed "unidentified flying objects" and claimed to maintain telepathic communication with space travelers.

NEARLY ALL agreed that what they called the "flying saucer movement" was undergoing sharp expansion. Two delegates announced they were negotiating to purchase radio stations to help transmit their theories. Several flying saucer magazines and hundreds of books were on sale at the convention.

"These people are contact-orientated," explained Gabriel Green, a serious young man who served as president of the Amalgamated Flying Saucer Clubs of America.

Flying Object Sighted in Illinois

NORMAL, Ill. — (UPI) — Several persons living on the same block here said they saw an unidentified flying object last night.

The object had four blinking lights, red, white, blue and green, proceeded north-easterly, hovered over a grove of trees, then returned southwesterly. The object was seen first by the Merle Simpson family, then others. They said it was flat and small.

MINNEAPOLIS TRIBUNE

"They accept spacecraft as a fact of life. Their interest is in contacting spacemen directly or through telepathy."

Green, who regularly runs for president as a "space age candidate," says he cannot practice telepathy but insists he has met spacemen on at least six occasions. The last of his visitors, he said, was four feet tall and came from the Alpha Centauri solar system.

A muscular, even-featured young man named Wesley Bateman said he never had met spacemen but that he was in "constant communication with them through telepathy" and offered a program of instruction to other delegates who sought similar contacts. His blonde wife, Jonell, attired in black Leotards, was kept busy signing up "students."

"There is no mystery as to whether the space men are watching us — some have already infiltrated our society," said Bateman. "The mystery is why so many are coming. What's going to happen?"

Flying Saucers
(To the Editor, S.C.M. Post)

Sir,—Citizens beware! This is not a drill! If you report what you see, your report will be treated as hallucination. Your honest desire to help solve an aeronautical mystery will be discounted by harassing confrontation by paid investigators who are instructed to suppress the authenticity of their investigation.

The UFO Project research has been operative continuously for more than 20 years. The scope and extent of this project is a carefully guarded subject. During that time it has maintained a continuous status of "Classified Information." The only information released by the U.S. Air Force for publication is periodic reports of a few selected cases of mistaken identity—such as the report to this newspaper on February 1, by Dr. Allan Hynnek: "In Search Of Flying Saucers."

Honest, sincere observers no longer report UFO sightings to accepted authority. (Why continue to slap your own face?) For several years actual sightings of spacecrafts are compiled at Flying Saucer Clubs all over the world. Amalgamated Flying Saucer Clubs of America (AFSCA) maintain a comprehensive information department that registers Club activities, and reports from all over the world. Anyone can write to AFSCA, 2004 N. Hoover Street, Los Angeles, California 90027, U.S.A., and receive a concise, conscientious report about any information he is seeking.

We don't need to search for Flying Saucers—we only need to acknowledge their presence. Actually we are on one of the strangest UFO's in the universe. Our "Friends" who are now investigating us cannot understand our belligerent attitude toward their conscientious effort to contact us.

"Neither can I."

UFO spotted 5-16-66
PASADENA (AP)—Scores of startled residents called newspapers and police after sighting what they described as blinking, moving lights in the skies over the San Gabriel Valley last night.

Officers said some residents saw the lights "travel fast, then slow, then stop." They said one Pasadena area resident reported the smell of perfume as the lights appeared and moved.

2 SOUTH AFRICAN POLICEMEN REPORT SIGHTING OF 'SAUCER'

JOHANNESBURG, South Africa—South African police and scientists investigated Thursday a report that a flying saucer-type object had landed on a main highway near Pretoria, the country's administrative capital.

Two patrolling police officers reported seeing the flaming "saucer," about 30 feet in diameter, shortly after midnight. One of them, Koos de Klerk, said that the shiny copper-colored object resembled a giant spinning top.

PC REPORTS 'I SAW 6 FLYING SAUCERS...'

DAILY SKETCH

Tuesday, May 17, 1966

POLICE CONSTABLE Donald Cameron made out a report last night and hoped the Chief Constable would believe that he really DID see six flying saucers.

PC Cameron was at home on sick leave when he looked out a window and saw six glowing objects hovering in the distance. "I thought I was seeing things and called my wife," he said last night. "We watched them for about 30 seconds before they disappeared at speed towards Manchester."

"They were about a mile away. I could see them clearly even though it was a dull day. They were white and glowing. One was bigger than the others with a cup-shaped dome—obviously the mother ship. The others were oval," he added. As he made out his report at his home in Chiltern-road, St. Helens, Lancs, PC Cameron said: "I suppose I will get some ribbing from the lads, but that is not what worries me... It's what the Chief Constable thinks."

The sky, however had failed to make a return appearance Friday.

Since the sightings, Tuesday, both Warrington and this borough have been overpopulated with television cameras, newsmen and the curious.

It'll be Long Before "Saucer" Is Forgotten

THE HERALD-NEWS
By PETER A. DYARACKAS
Herald-News Sports Writer

Many months will pass before the impact of the strange flying objects which dominated the North Jersey skies this week fades into memory.

The bright white disk that streaked across three counties and hovered periodically over the Wanauke Reservoir will provide an ample amount of conversation for weeks to come. Indeed, thousands of eyewitnesses know well the story of that mysterious terrestrial stranger.

Not that the tale of the flying saucer is over yet. Investigators from the National Aerial Phenomena (NICAP) may arrive today in Upper Passaic County from Washington D.C. to probe the UFO sightings.

Dr. George White, an electronics expert, and Dr. John Pegano of Fort Lee will investigate the scene of the unidentified object and then report back to NICAP. Announcement of the impending study was made by Richard Hall, assistant director of NICAP.

Nightly Vigil
Police at Wanauke, the state's largest water storage basin, continue to maintain a nightly vigil at the headworks, in Ringwood Avenue and Westbrook Road to spot that weird disk of light which was seen as late as Thursday night making sharp dips and maneuvers over the reservoir.

It was Tuesday at 8:30 p.m. when residents, motorists, municipal officials, and police glanced up at the sky and began the first chapter of an aerial

mystery which has yet to be solved.

"Listen... this sounds crazy, but I saw something in the sky. Do you know what it is?" This was the question posed to the police at the North Jersey police radio hook-up in Pompton Lakes. The calls came in from Wanauke, Ringwood, West Milford, Paterson, Totowa, Wayne and Butler.

Astounded residents were searching for an explanation. Even the police were dumbfounded. They too saw the white oval hovering in the heavens from their patrol cars.

The UFO was described then as a white and garishly bright disk, two feet in diameter.

According to observers, the odd movements of the mysterious visitor was enthralling. Some felt as if it were "toying" with police, citizens and borough officials by performing dives almost into the reservoir at times appearing "as if it were looking down" upon the spectators from a silent stationary position high in the heavens and by making neat right angles as if it were using the sky as a chalk board.

Made Several Stops
The UFO then made quick stops at various locations in the community: Lakeland Regional High School, the Houdaille sand pit, the overhead bridge in Ringwood Avenue... and then it disappeared.

Hours later at 2:15 Wednesday morning, it re-appeared over Wyckoff and five minutes later it was spied over the reservoir in Wanauke where police say it almost came to rest at the top of the 1,500 foot long Raymond Dam. It was gone at 4:15 a.m.

New 'Fireball' Raises An Old Question: Do Flying Saucers Exist?

By ELLIOT CARLSON
Staff Reporter of THE WALL STREET JOURNAL

They're back. The latest was sighted a few nights ago by residents and pilots in the northern tier of states and Canada. They described it as an orange fireball. The Air Force at first called it an unidentified flying object, but now thinks it was a meteor. Some other people called it a flying saucer.

Several people say they saw the fireball last Thursday night. An 11-year-old boy in Lorain, Ohio, says he watched it drop into the woods near his home. A woman in Elyria, Ohio, 10 miles away, claims she saw it plunge into a vacant lot across the street from her home. Others say they saw it streak into Lake Michigan. Scientists and police combed a 75-acre area near Pittsburgh after a woman there saw the object crash to earth "smoldering."

Despite these witnesses and search efforts, however, the thing has yet to be found. In this regard, it is like all other unidentified flying objects, or UFOs, which are mysterious because they are seen but never found.

Whatever it turns out to be—meteor, satellite, part, hoax, weather oddity or man from Mars—it appeared in a banner year for such objects, which almost disappeared from public consciousness following a rash of reports of flying saucers in the mid-1950s. "We've had more reports this year than in any year since 1957, when we had more than a thousand," says a spokesman for Project Blue Book, the Air Force program set up in 1948 to evaluate reports of the phenomena.

Visitors From Outer Space
Nobody knows what the objects are or where they come from, but there is no lack of theories—or of controversy. The Amalgamated Flying Saucer Clubs of America, Inc., is sure the "saucers" come from outer space. How do they know? The "space people" have told them.

Not only that, says Gabriel Green, who heads the California group, "space people give contactees information about life on other planets and solutions to insurmountable problems on our planet." One suggestion allegedly made to Mr. Green in 1960 by a visit from Alpha Centauri, a nearby star: Run for President as a write-in candidate. (He campaigned briefly, then decided not to run.)

The National Investigations Committee on Aerial Phenomena (NICAP), a private research organization in Washington, doesn't hold with that theory. "We reject reports of noble beings landing on earth to solve all our problems," says a spokesman. So men from Mars are a lot of bunk? Not necessarily, says the committee. It believes a Congressional investigation would prove that UFOs "are real physical objects... under the control of living beings." As an afterthought, the spokesman says: "There are a tremendous number of egomaniacs who have been able to appoint themselves experts in this field because it's so confused."

One man who's not confused at all is Charles A. Maney, professor emeritus of physics and mathematics at DePauw College in Ohio. Says the professor: "These objects are unquestionably from outer space." He bases his reasoning on the fact that the objects often interfere with local electrical circuits, indicating to him they have "a means of propulsion associated with magnetic fields."

"There's Nothing To It!"
Such notions are scoffed at by astronomers, however. "All this is imagination outside the realm of science," says Donald H. Menzel, director of the observatory at Harvard. "I have examined Air Force cases and discovered that UFOs all have simple explanations in terms of well-known natural phenomena. There's not one cause, but hundreds. Some are quite spectacular, such as reflections from ice crystals or bright stars, searchlights on clouds or high-flying spider webs. But to some people the existence of flying saucers is a matter of religious fanaticism," he says.

But Mr. Menzel reads more into the Air Force data than does the Air Force itself. Of the 9,788 UFO reports made to the Air Force since 1947, 673 remain classified as "unidentified," a spokesman says. He defines this category as containing sightings whose pertinent data can't be correlated with any known object or phenomena.

Experiment?
Robert's theorized the object "might possibly have been a government experiment in the creation of an anti-gravity machine."

As yet nobody really seems to know what the UFO was or where it came from. Some say it is a balloon, others, men from Mars.

But this is not the first time a UFO has been sighted over the Wanauke. Some 18 years ago Charles Capen, former chief engineer of the North Jersey District Water Supply Commission said he saw something that looked very similar to the object described in the newspaper.

100 Watch UFO Disc-Like Object Hovers, Rises For Two Hours East of Kettle Point

By JIM ETHERINGTON
Free Press Staff Bureau

SARNIA — A revolving object, sighted in the sky east of Kettle Point last night, was watched for more than two hours by about 100 persons.

Lawrence Bressette, who operates a store on the Kettle Point Indian Reserve, said a motorist brought the object to his attention about 8 p.m. He said he looked at it through binoculars and could see red, blue, green and white lights flashing from the disc-shaped object.

Mr. Bressette said it remained motionless for about an hour flashing lights, then slowly began to rise. Cloud cover rolled in about 10 p.m., allowing only periodic sightings.

"I've never seen anything like this," he said. "We all saw it. It was low — about 200 or 300 feet off the ground to the east. Then it slowly began to move up."

Mr. Bressette said it could not have been swamp gas which was suggested as the cause of unidentified flying object sightings in the Detroit area last week.

"I've seen swamp gas lights. This was not the same," he said. "Besides there hasn't been any swamp gas lights around here since before the war."

Mr. Bressette said his brother, Jeffery, also reported seeing an object over Sarnia. This one stayed stationary for a short time then shot across the sky at a very high speed.

An officer in control operations at Selridge Air Force Base, Mount Clemens, Mich., said the Canadian sighting was the fourth reported to him last night. The other three were from the Detroit area.

He said no radar reports had been obtained on any of the sightings.

Mr. Bressette reported jet planes in the area at one point while the group watched along the Lake Huron shore. But there was no possibility the object he saw was a jet.

In Michigan new reports of

UFO sightings were received Saturday night as far north as the tip of the "Thumb" in Lake Huron.

Odd lights were reported in the sky over Oakland County and the neighboring Detroit area. Others were reported westward in the Lansing area.

Dr. J. Allen Hynnek of Northwestern University, scientific consultant to the U.S. Air Force, said phenomena seen at Dexter and Hillsdale on the night of March 20 probably were the result of swamp gases.

"I have examined Air Force cases and discovered that UFOs all have simple explanations in terms of well-known natural phenomena. There's not one cause, but hundreds. Some are quite spectacular, such as reflections from ice crystals or bright stars, searchlights on clouds or high-flying spider webs. But to some people the existence of flying saucers is a matter of religious fanaticism," he says.

But Mr. Menzel reads more into the Air Force data than does the Air Force itself. Of the 9,788 UFO reports made to the Air Force since 1947, 673 remain classified as "unidentified," a spokesman says. He defines this category as containing sightings whose pertinent data can't be correlated with any known object or phenomena.

Experiment?
Robert's theorized the object "might possibly have been a government experiment in the creation of an anti-gravity machine."

As yet nobody really seems to know what the UFO was or where it came from. Some say it is a balloon, others, men from Mars.

But this is not the first time a UFO has been sighted over the Wanauke. Some 18 years ago Charles Capen, former chief engineer of the North Jersey District Water Supply Commission said he saw something that looked very similar to the object described in the newspaper.

New 'Fireball' Raises An Old Question: Do Flying Saucers Exist?

By ELLIOT CARLSON
Staff Reporter of THE WALL STREET JOURNAL

They're back. The latest was sighted a few nights ago by residents and pilots in the northern tier of states and Canada. They described it as an orange fireball. The Air Force at first called it an unidentified flying object, but now thinks it was a meteor. Some other people called it a flying saucer.

Several people say they saw the fireball last Thursday night. An 11-year-old boy in Lorain, Ohio, says he watched it drop into the woods near his home. A woman in Elyria, Ohio, 10 miles away, claims she saw it plunge into a vacant lot across the street from her home. Others say they saw it streak into Lake Michigan. Scientists and police combed a 75-acre area near Pittsburgh after a woman there saw the object crash to earth "smoldering."

Despite these witnesses and search efforts, however, the thing has yet to be found. In this regard, it is like all other unidentified flying objects, or UFOs, which are mysterious because they are seen but never found.

Whatever it turns out to be—meteor, satellite, part, hoax, weather oddity or man from Mars—it appeared in a banner year for such objects, which almost disappeared from public consciousness following a rash of reports of flying saucers in the mid-1950s. "We've had more reports this year than in any year since 1957, when we had more than a thousand," says a spokesman for Project Blue Book, the Air Force program set up in 1948 to evaluate reports of the phenomena.

Visitors From Outer Space
Nobody knows what the objects are or where they come from, but there is no lack of theories—or of controversy. The Amalgamated Flying Saucer Clubs of America, Inc., is sure the "saucers" come from outer space. How do they know? The "space people" have told them.

Not only that, says Gabriel Green, who heads the California group, "space people give contactees information about life on other planets and solutions to insurmountable problems on our planet." One suggestion allegedly made to Mr. Green in 1960 by a visit from Alpha Centauri, a nearby star: Run for President as a write-in candidate. (He campaigned briefly, then decided not to run.)

The National Investigations Committee on Aerial Phenomena (NICAP), a private research organization in Washington, doesn't hold with that theory. "We reject reports of noble beings landing on earth to solve all our problems," says a spokesman. So men from Mars are a lot of bunk? Not necessarily, says the committee. It believes a Congressional investigation would prove that UFOs "are real physical objects... under the control of living beings." As an afterthought, the spokesman says: "There are a tremendous number of egomaniacs who have been able to appoint themselves experts in this field because it's so confused."

One man who's not confused at all is Charles A. Maney, professor emeritus of physics and mathematics at DePauw College in Ohio. Says the professor: "These objects are unquestionably from outer space." He bases his reasoning on the fact that the objects often interfere with local electrical circuits, indicating to him they have "a means of propulsion associated with magnetic fields."

"There's Nothing To It!"
Such notions are scoffed at by astronomers, however. "All this is imagination outside the realm of science," says Donald H. Menzel, director of the observatory at Harvard. "I have examined Air Force cases and discovered that UFOs all have simple explanations in terms of well-known natural phenomena. There's not one cause, but hundreds. Some are quite spectacular, such as reflections from ice crystals or bright stars, searchlights on clouds or high-flying spider webs. Would You Believe 'Saucer' Visits Wichita?

By FRANK KENTLING
Beacon Staff Writer

An 11-year-old Wichita boy has joined the ranks of those across the nation who have reported seeing "flying saucers" during the past week.

Johnny Sparks said that early Friday morning he saw two "flying saucers" that made a humming noise and were bigger than cars. He is the son of Mr. and Mrs. Calvin Coudine Thomas, 916 N. Topoka.

Here is the story of what he told:

"I had been upstairs to my mother's room and then I heard this funny noise. 'It went mmmmmmm—like a flying top. I started to go back to bed when I heard it. Then I looked out the window and I saw it."

"I saw this flying object that people have been talking about. It had colored lights and was spinning."

"It was bigger than a car and the colors were purple and red and orange and green."

"When I saw them at first, it was in the sky. Then I saw them flying right by my window."

"I didn't look like it had any windows and it landed like an airplane. When it started landing it had legs and put them out on the ground."

"The top part spun, but the rest didn't. It was like a big flat disk. The top had a small circle in the center. I saw a small one looked just like the first one. One came down and the other came up. The other one just sat and spun."

"I was too scared to wake anyone up."

When it started leaving I covered up my head."

He said his mother said it might be the noise of a plane. He said he was sure it was a "flying saucer" because it had a small circle in the center and it had legs. He said he was sure it was a "flying saucer" because it had a small circle in the center and it had legs.

None of the neighbors reported anything unusual when told of the sighting. Mr. Thomas said he never noticed anything unusual when told of the sighting. Mr. Thomas said he never noticed anything unusual when told of the sighting.

JOHNNY SAID his saucers landed on a driveway on the north side of the house—nowhere near a swamp. Johnny evidently had seen a fifth saucer because of an orange that he had seen on school Friday.

When asked if he could have been having a bad dream, Johnny replied: "I am pretty sure I was awake because I had just gone to bed. I didn't even have time to cover up before I saw them."

The boy estimated that each saucer was about the size of a car. He said he saw something like a car but that it didn't vary with that repeated telling.

MRS. THOMAS ADMITTED she was a little embarrassed about the sighting, but she did not doubt the boy's story. Johnny said he never thought there was anything like flying saucers "until I saw them."

Also, said had swirled into the driveway area.

Johnny said he was not anxious to repeat his sighting experience. But he hoped if they ever came back, and if somebody was in one... that they would be friendly.

UFO Sighting Reported Here

Not a Star — Not an Aircraft, Says Louis S. Smith Family of North Bend

The Louis S. Smiths, who live on the CCO road, spent an interesting 10 minutes or so Thursday evening, April 7, as they used binoculars and a telescope to watch something in the sky which they were unable to identify, according to an Unidentified Flying Object.

It was first seen by Phil, 15, a freshman at Mount St. about 8 p.m. "I was out walking with my dog, and the first thing that attracted me were the bright lights. I knew it couldn't be a star. Then I realized it was moving."

Phil ran in the house and called his parents and sister, Diana, 18, a Mount St. senior. They all ran outside and all reported sighting the strange object.

Phil used a telescope (30 power) on a tripod and said he had a fairly good view of the object. He said he was unable to see through the telescope. "Every time I tried it the object would move away from me. It was like a black blob that moved away from me. It was like a black blob that moved away from me."

He agreed that his son's sketch of the shape of the object was reasonably accurate.

'Mysterious UFO' Escorts Burns Plane

Escorts Burns Plane

ABOARD THE BURNS CONVAIR — It's been a long political campaign but last night Gov. Gordon Burns, from central newspapers, Mrs. Burns and six Burns staff members saw two spots of light that looked suspiciously like an unidentified flying object escorting the Burns Conair.

NEW YORK (UPI) — A flaming object — apparently a meteorite — was seen by a Coast star shortly after dark last night, touching off thousands of news reports and a meteorite news agency reporting every object from a plane about to crash to "flying saucers."

A spokesman for the Federal Aviation Agency at Kennedy International Airport said it appeared the object was a meteorite moving from south to north. It was believed to have landed in Long Island Sound.

The spokesman said the tower at Washington airport reported seeing the object dash across the heavens.

He said a report also was received from Boston airport, where aircraft had resumed looking out the window of the seeing the object swooping high through the air.

One pilot said it was a fireball with a long vapor trail. The FAA said a vapor trail was unusual, but apparently was the result of the object getting into the earth's lower atmosphere.

A spokesman for the Air Force at Stewart Air Force Base, Newburgh, N.Y., confirmed that it was a meteorite breaking up and burning itself out.

DR. ASHER CHAPMAN, an examiner for the FAA said he rushed to the window of his home in Glen Cove, N.Y., to see the object traveling about 10 feet above ground, 200 to 400 miles an hour, from south to north. He said he was at first of the object, but then he saw the object swooping high through the air.

OUR NEW NAME: Our magazine, formerly called "UFO International", has now become "Flying Saucers International", which we feel to be a more appropriate title, since Flying Saucers are no longer Unidentified Flying Objects as far as we are concerned. Flying Saucers have become a serious issue with thinking people all over the world. We believe that most of the objects which have been sighted have been of extraterrestrial origin, controlled by intelligent beings who, in form, are very much like us. Therefore, we hope you will understand our reasons for changing titles, and that you will continue to enjoy reading our publication under its new banner.

DR. RAYMOND BERNARD, founder of the Biosophical Society of Santa Caterina, Brazil, passed away on Sept. 10, 1965. He was the author of "The Hollow Earth" and several other books concerned with the hollow earth theory.

MARIA ELLIOTT, contactee, psychic and founder of Maria Creative Womanhood Foundation, was a recent guest on the Bob Grant Radio Show, and the Pamela Mason TV Show. Glamorous Maria now has her own program every Tuesday afternoon at 2:30 p.m. on KTYM radio. She may be seen in person every Wed. evening at Holland House Restaurant, 8:00 p.m. in the downstairs meeting room. An interesting program may be heard on New Age Topics, and free readings are given. For more information about Maria's appearances, classes, etc., phone 657-1631, or write: Dr. Maria Elliott; 1543 Sunset Plaza Drive; Los Angeles, Calif. 90069.

DR. GEORGE KING, founder of the Aetherius Society, was host at the official opening of the Society's new headquarters at 6202 Afton Place; Los Angeles, Calif. 90028; on March 5, 1966. After the program Dr. King personally escorted us around the attractive quarters. He also reported that a high Space Being in physical form had visited there recently for an hour and fifteen minutes and, after

walking around the premises, left his blessing on the Aetherius Society and its work. For further information call 465-9652, or write to the above address.

DELLA LARSON, who for over a decade was the guiding light and main instigator of Flying Saucer meetings and activities in the San Francisco Bay Area, passed away on October 25, 1965. She was 70 years old. She will be remembered for her energetic and enthusiastic dedication to the goals of the Flying Saucer cause, as well as for the highly successful annual Northern California Space Craft Conventions which she organized for nine years. (Della, we salute you!)

MAX MILLER, former publisher of the now-defunct "Saucers" magazine, and author of "Flying Saucers: Fact or Fiction" (now out of print), has a new role. He is now editor-publisher of "Real" magazine which may be found on the newstands for 50¢. The August '66 issue devotes about half of its space to the Flying Saucer subject and will be well worth your investigation.

WILBUR MILLER, one of the early researchers in the Flying Saucer Movement, passed away on March 5, 1966. He was known for his fine channel contacts with several Space Beings, including Monka of Mars. He also was the co-author — with his wife, Evelyn — of the book "We of the New Dimension." Although he was a native of Missouri he had, in recent years, been a resident of Los Angeles and of Morongo Valley, Calif. (Good journey, Will!)

HOPE TROXELL, founder of the School of Thought, now situated in Independence, Calif. (P. O. Box 458), reported recently that the neighboring towns of Bishop and Lone Pine had partial blackouts during an evening channel (teletpathic) session she was having with the Space Brothers. The lights in Independence went out completely for several minutes by a gradual fade-out, and then came on again in the same manner. During this time, the Space Being speaking through Hope said to those present: "Be not afraid. We are guardians of the race. Protection will be given to those in the area."

HAL WILCOX made a fine guest appearance on the Joe Pyne TV Show, April 30, 1966. Hal passed the lie-detector test with flying colors and conducted himself with dignity and fortitude, which isn't always easy on the Joe Pyne Show. During the test, Hal stated that he had taken a saucer ride to visit the second planet from the star, Alpha Centauri.

M. I. N. D. stands for Mental Investigations of New Dimensions, an organization recently formed by Wesley and JoNell Bateman. Their activities include meetings, courses and public appearances. HELEN & GABRIEL GREEN contributed their bit to the education of nearly 300,000 young people to the saucer subject at the Teen-Age Fair, April 1 thru 10 at the Hollywood Palladium, where AFSCA had a booth to exhibit saucer photos, show slides, and to disseminate information. We handed out over 13,000 brochures and saucer photo post cards, and talked ourselves hoarse answering questions for 12 hours each day. Gabriel also made over a dozen radio and TV appearances and interviews during the Fair.

We also had another booth at the National Aviation and Aerospace Exhibition at the Pan Pacific Auditorium, May 17 thru 22. Yes, we've been busy!

Dear Sir:

On the afternoon of January 22, 1967, Mr. A. Mackevich, 15 Forest Drive, Florham Park, New Jersey (377-6553) telephonically contacted a Special Agent of this office and furnished the following information:

At 7:00 am, January 21, 1967, his son, Peter M. Mackevich, age 11, observed an object hovering from ten to twelve feet above the ground at the intersection of Deerfield Drive and Forest Drive, adjacent to his home. He described this object as shaped like an inverted saucer approximately twenty-five feet in diameter with a turret on the top surface.

Mr. Mackevich said his son took two photographs of this object from the son's bedroom window which faces in a northerly direction. The first photograph shows a cloud of smoke with the turret on top, and the other photograph shows the entire object.

Mr. Mackevich was requested to furnish any information relative to this matter to your office.

Very truly yours,

RWA
R. W. Bachman
Special Agent in Charge
